**Memorandum on Domestic US Torture Programs
Running Under Cover of Surveillance
Covert US Military/Intel/Justice Physical Mutilation of the Population
EMF Weapons, Neuro-Weapons, Bio-Terrorism, & Organized Stalking**

Date: 25 January 2017

To President Donald J. Trump

Dear Mr. President,

We unite in asking you to act to **terminate immediately the ongoing covert programs of Electronic Warfare and COINTELPRO-based domestic terrorism that are currently being run by the US Intelligence agencies, US Military, US Homeland Security, and their contractors** in the name of Electronic "Surveillance" and National Security against the American population.

As you enter this office for the first week, it is possible the Deep State and unelected shadow government that apparently hovers behind all those elected to the government of the United States will present these covert programs to you as normative Intelligence and surveillance activity necessary for the preservation of National Security.

As Intelligence analysts, human rights activists, advocates, whistleblowers, writers, scientists, victims, and highly productive and accomplished members of society with varied science, arts, and humanities backgrounds in critical thinking, systems analysis, engineering, education, healthcare, law, and Intelligence, we are here to inform you otherwise: **These are NOT normative Intelligence and**

Surveillance activities. Using the deadly weapons of Electronic Warfare, *these are organized Terror programs*, committing the most horrific crimes and human rights violations, causing grievous bodily harm to countless numbers of innocent citizens.

Surveilling and assaulting neither terrorists nor spies but the best and brightest, most productive, and most accomplished Americans, as well as whistleblowers and activists, these programs seriously destabilize our civil society, are at risk of irreversibly degenerating the economic output of our country, and have already become our most shameful export abroad.

Situation On the Ground in Continental USA

Thanks to the trillions of dollars poured annually into Covert Operations funding, the carte blanche given to Intelligence and Military agencies, both pre- and post-911, and the convenience of classification and concealment of all manner of dubious activities as necessary for National Security, fraud, waste, and corruption at the highest levels of Government is now endemic. Corrupt factions in Intelligence agencies and in Military departments ***are now openly committing war crimes and crimes against humanity*** in acts of direct enmity against the American people.

1. In the name of the War on Terror, a superior trafficking operation has been unleashed by the US Military, Department of Homeland Security, and the CIA on American citizens:

Current military and Intelligence directives (5240.1R, the NDAA, EO 12333, and the CIA's AR 2-2) together permit the US military to detain citizens indefinitely, and to use those Americans “under surveillance” for experimentation purposes. This is used for an outright, public enslavement and torture of a large fraction of the US population.

The creation of Joint Targeting operations, Fusion Centers, Regional Information and Sharing Systems (RISS) programs with privatized Intelligence centers, as well as “Community Policing” and “Neighborhood Watch” initiatives have permitted a network of immoral and depraved operatives from Law Enforcement, the Intelligence agencies, and the military, using the guise of “national security” to conduct financially rewarding no-holds-barred human testing for the pharma, surveillance, and weapons industries, as well as to live out their personal sadism and depravity. **It is a telling characteristic that the victims of these crimes are 70-80% women. The sex ratio is indicative of sexual violence and war crimes.**

Meanwhile, an ever increasing army of civilian, quasi “Law Enforcement” personnel, sometimes taken from the dregs of society, is being trained, round the clock, and used in set-up 24/7 operations, on those innocent Americans being targeted.

2. In the name of the War on Terror, and masquerading as necessary Electronic Surveillance, condoned and orchestrated by US Homeland Security and the US Department of Justice, the most deadly weapons of Electronic Warfare are being routinely used on civilians under so-called surveillance **inside their own homes** including:
 - directed-energy and microwave weapons,
 - infrasonic and ultrasonic weapons,
 - military radar weapons,
 - neuro-weapons,

- infections with biological or synthetic self-replicating nanotechnology agents (“smart dust”) that aid the readout of brain activity.

These are military weapons of war, designed to incapacitate, degrade, and destroy human organs, nerves, bodies, and brains; they are further being used inhumanely, in non-stop, 24/7 scenarios of attack.

In addition, CIA/DIA/DARPA/NSA agents also run covert interrogation exercises, mind control operations, and behavior modification programs (extensions of MK ULTRA and the original Nazi death-camp experiments) on their brains.

A vast apparatus of sophisticated stealth Electronic Warfare and Signals Intelligence equipment carried on planes, drones, helicopters, satellites, cell towers, ground-vehicles—and involving the complicity of all Intelligence agencies, such as the NRO, NGSAs, and Federal agencies such as the FAA and NASA is being used for this purpose.

Those being hit with Electronic Warfare weapons are also being subjected daily to COINTELPRO actions or “Zersetzung”—organized stalking, crowding, mobbing, obstructing, brighting, flashing, noise harassment carried out by the FBI's Infragard, as well as US Neighborhood Watch groups.

These are joint US Military and Intelligence programs of domestic torture, hidden under cover of biometric surveillance, physical surveillance, and electronic surveillance by a cynical and corrupt Homeland Security/Department of Justice mechanism, which has permitted the use of cover-story labels to conceal the use of violence on American citizens.

3. In the name of the War on Terror, in 2017, American neighborhoods and communities have been transformed from calm, peaceful, and neighborly communities into *predator vs. prey*, i.e. divided holdouts of covert spying, snitching, Electronic Warfare, smear campaigns, and studied COINTELPRO attacks on neighbors, planned and coordinated through federal government-sponsored intelligence, information and command centers at the national and local levels, such as the Regional Information Sharing System (RISS), the U.S. Department of Justice, and the network of Fusion Centers.

At core of these attacks are the innocent Americans being wrongfully targeted and defamed as extremists, terrorists, spies, enemy combatants: often the most upright in communities, people of conscience and community spirit, integrity and accomplishment, entrepreneurship and creativity, innocence and impeccable character, people targeted not for their potential for criminality but for their innate power as attractors and disseminators of positive community influence.

The coterie of criminals from inside the FBI/DHS/CIA/NSA and local Law Enforcement and RISS centers involved in these programs *openly lie in neighborhoods to name these innocents terrorists or spies, open investigations on innocents, start slander and defamation campaigns on innocents*, and then corral whole communities into helping them surveil, spy, sabotage, and slander them, under threat of high fines and jail time.

By these means, whole lives are destroyed: employment is sabotaged, lies are circulated, and families are torn apart.

Neighbors become collaborators and complicit when they let Electronic Weapons operators freely enter their neighborhoods and homes, using their driveways and properties to install

antennas and conduct tracking operations.

Collaborators are paid handsomely and bribed with home renovations, new cars, and tickets to luxury holidays and ball games. They are also trained in the operation of certain equipment, including cell phones to direct pulsed radiation attacks, which they now turn on their innocent neighbor.

This rewards and entrenches corrupt behavior in a manner that will utterly splinter and disintegrate our society for decades to come. Worst of all, this system of routine horrific abuses has developed a life of its own whereby ever more vindictive acts are committed and the perpetrators on the ground take free licence to do whatever they like at the expense of economically productive members in our society. Their excesses include electronic rape.

4. Psychiatry has been roped in as political tool to subjugate those reporting these programs by naming them delusional, a verdict that Law Enforcement and CIA-controlled media then run with.

It must be stressed that the national silence on this issue as well as the distortions of reportage we see in mainstream-media mention of “Targeted Individuals” who report abusive surveillance programs is directly related to the vampiric control of major media that the CIA exerts, and their deliberate promotion of deception in coverage, *in order to keep these violent, mutilatory programs of Electronic Weapon use on citizens clandestine and concealed.*

Corruption at the levels of Law Enforcement and the Department of Justice, and the use of weaponized psychiatry combined with indiscriminate smears and slander of the victims has prevented the situation from being remedied.

A Public Scandal Of International Proportions

This has now become a proliferating and self-perpetuating industry of premeditated, systematic mutilation of some of the most productive members of our society.

By getting rid of people of conscience and integrity, whistleblowers, and activists in communities—through these extreme means of public torture and humiliation—it appears that the covert operators in Intelligence and military agencies running these programs seek more and more to create docile, deceitful, and pliable populations, people who will believe the official lie, people who will turn on their own friends and neighbors, people who will assist in stoning the innocent to death.

The extent and sadism of these deliberate bodily and brain assaults—which essentially involve the use of military weapons of war on peaceful, non-combatant, unarmed civilians, peacefully residing in their own country--amount to **crimes against humanity being perpetrated against the American people.**

And sadly, these Nazi death-camp programs of torture have become USA's most prominent export along with our bombs, missiles, and drones.

To the disgrace of all Law-Enforcement, victims have been pleading for support publicly on social media for years. By now, the situation has gone beyond a disgrace and has become a public scandal of international proportions that is threatening the stability of our societies. Without a doubt, this problem is destroying the best and brightest in our nation and will inevitably affect the economic and creative

capabilities of the US. This already sets us back in the race with other nations and seriously exposes the US to the danger of a hostile takeover.

Silent Holocaust Taking Place Inside the US

Please see attached here:

1) The Executive Summary: Neuropsychological and Electronic No-Touch Torture Report (Based on "The Torture Memos" and the Senate Intelligence Committee's Declassified "Torture Report") By Robert Duncan, A.B., S.M., M.B.A., Ph.D.

2) NSA whistleblower Karen Stewart's succinct summation of what has happened to America today:

"Under former President Bush and now continued under President Obama, what apparently started decades ago as illegal and clandestine programs of experiments on human subjects, such as the CIA's MK ULTRA, has resulted in the proliferation of Defense Contractors such as Lockheed Martin, Raytheon, General Dynamics, and others, making secret agreements with Federal agencies such as DOD, DIA, NSA, DHS, etc., to allow them and related laboratories and universities to expand inhumane experimentation programs such as illegal experiments for Directed Energy Weapons on unwitting and non-consenting American citizens.

The scam goes like this, random people, or people who are dissidents or whistleblowers are purposely mislabeled as "terrorists" and put on an Enemies List, which is then turned over to Defense Contractors to target under perverted interpretations of NDAA and PAA.

This allows them to engage the Military and Law Enforcement in either the active harassment and torture of individuals illegally targeted for fraudulent cause, or it gives the Defense Contractors carte blanche to commit criminal assault upon innocent citizens while demanding (unconstitutionally) that Police stand down and do nothing to help their victims."

Please Act Now To Stop These Crimes Against Humanity in the USA and Worldwide

To stop these crimes against humanity we, the undersigned, request that you *immediately*:

- **Stop all of these surveillance, testing, and experimentation programs.**
- **Stop and revoke all mandates permitting the US military to test weapons on citizens.**
- **Repeal and revoke all civil and military directives which permit non-consensual experimentation on Americans.**
- **Call out the National Guard to confiscate all portable EMF-weapons and radar/sonic/scalar surveillance devices, and haul off to prison anyone - including Feds, law enforcement, etc., found with them as they violate many, many sections of 18 USC in regard to weapons of mass destruction.**
- **Freeze all programs of surveillance** being run by any and every agency in the DOJ and Homeland Security apparatus,
- **Force the open publication of the list of names** of all people who have been targeted with organized stalking, EMF and neuroweapons by agencies at the federal, state, and local level for the past thirty years.

- **Compel disclosure of the medical parameters of these classified, covert, special access surveillance and torture programs** from all Universities and research institutions, all Defense and Intelligence contractors, departments, and agencies.
- **Compel disclosure to each victim of his/her file** containing what experiments have been conducted, what has been injected or implanted, what nanotechnology has been administered, **and provide immediate, fully-compensated medical help** in scanning/implant removal, radiation-damage treatment, & taking other medical/health measures against the long-term consequences of these crimes.
- **Fully re-imburse to victims all medical costs and family funeral expenses** sustained during the course of these torture programs, **and plan to provide continuous compensation** for all victims' health expenses until death.
- **Cut funding for all surveillance programs** currently being run on named American citizens.
- **Cut all covert operations funding** for any and every agency, in particular the CIA.
- **Compel mainstream media** to fully and openly detail these programs of torture on citizens.
- **Root out all personnel** employed in these programs, starting from the top.
- **Set in motion a Congressional investigation**, to fully uncover and disclose details of these programs.
- **Dismantle all agencies and military groups whose record shows shameless participation** in these crimes against humanity.
- **Work closely with your counterparts and with agencies abroad** to ensure the same results of restoration of human rights and freedoms, worldwide.

These crimes against humanity *need to be stopped* if the United States of America wants to retain its national resilience and keep the goodwill of its partners worldwide.

You have an opportunity today to set right many historic wrongs. Much is made of America's history of slavery. Yet this reality on the ground today shows us, that with the stealth weapons of Electronic Warfare and Neurowarfare, slavery has entered a new phase.

You have said:

“There should be no fear -- we are protected, and we will always be protected.

We will be protected by the great men and women of our military and law enforcement and, most importantly, we are protected by God.

...We will make America safe again.”

--President Donald J. Trump, Inauguration Day Address, 1/20/2017

But there are NO laws on the books today in the USA—land of the free and home of the brave—to prevent non-consensual experimentation on humans. Americans today are enslaved and are exporting this medieval travesty into every corner of the world.

Your children and grandchildren are just as much at risk as ours.

Please act today to put an end to these horrific, shameful crimes against humanity which are tearing apart our society.

Sincerely,
