TO THE DIRECTOR, CIA:
TO THE DIRECTOR, ALL BLACK OPERATIONS, CIA:

I am writing to demand that you immediately stop your assaults on my body with microwave pulse weapons, millimeter wave weapons, scalar technology, quantum tunnelling technology, rfid technology, and other exotic tech being used to assault me night and day, in my home, in America, from the direction of neighbors' houses, parked cars, cell antennas, rooftop antennas, and in-neighborhood microwave emitters. As a writer and journalist I have been reporting on this technology--with documented evidence and whistleblower testimonial--for 8 years now; I am being assaulted with this tech currently to extreme effect, assaulting my writing arm. I am demanding that you stop these outrageous Torture and Battery hits on my writing arm--in retaliation for my work in informing the public of CIA-DOD-FBI crimes and the truth about the toxins in vaccines?--and I assure you I will further publicize these extreme attacks, done in stealth which can be laid only at your door and at the door of the DOD. If other parties are engaging in these assaults, kindly root them out. These attacks **MUST** be stopped immediately. I am a free and living American with a live-life-claim, living on the land in America in keeping with all law on the land--common law and natural law, a law-abiding and non-criminal American I should add--with no criminal record whatsoever in any jurisdiction, past or present--I am not subject to the fraud of maritime law, and the CIA has no right whatsoever to be mauling me with stealth weapons. This is criminal in the extreme on your part: by your own laws and statutes, there is no permission that you have ever been given to maul, mutilate, assault, attack, torture, disfigure, disable, burn, boil, beat, pulse anyone with remote-access electromagnetic and ultrasonic or infrasonic weapons. Assault and Battery is Assault and Battery, by whatever means. Running these attacks in stealth, as a classified operation, does not take away from the fact that you are committing massive crime in doing so. I reiterate, the incredible and extreme assaults on my arm (which have now massively damaged my arm)--as well as all other body parts--need to be stopped immediately.
