Second Notice of Grievous Harm to Schoolchildren in Massachusetts Due to Commissioner and DESE Board-Issued Mask Mandate for K-12 Children in School; Notice of Dangers from the COVID Investigational New Drugs Which are Gene-Therapy and not Vaccines

First Notice: Physical and Psychological Harm to Schoolchildren: Dangerous Mask Mandates and Nonstop COVID-Testing, Monitoring, and Policing are Not the Purview of Public School Education and MUST BE HALTED IMMEDIATELY/Sent to Commissioner and DESE Board Sep 2, 2021

Dear Mr. Riley,

I am following up on my letter to your office regarding the grave dangers to Massachusetts children from being masked all day, to which I did not receive a response, nor a positive outcome, since it appears your mask mandate—which is not lawful—is still in effect.

I have now watched the livestream of your August 24, 2021 meeting and vote to condemn our schoolchildren to 8-hour mask-wearing (which even you and your staff do not engage in, I am sure) where except for one board member's reasoned articulation of the harms to children and counterindication of masks, no information was surfaced or shared regarding the grave psychological, physical, biological, and immunological harm to children from prolonged wearing of masks all day. I will be reporting shortly on this meeting and mandate, which clearly shows that the Board of Elementary and Secondary Education has not at all taken into account the many extant studies on the great risks and harms from wearing of masks, as well as the ineffectiveness of masks in preventing, curtailing, or limiting the spread of any infectious viral disease.

I enclose with this letter a listing of studies, articles, reports, video statements by experts, video testimonials by experts, parents, and children, which I will also post at my site and update on a rolling basis.

**K-12 MASK MANDATES DO NOT SAFEGUARD CHILDREN'S HEALTH;
MASK RISKS INCLUDE BACTERIAL PNEUMONIA, HYPERCAPNIA, HYPOXIA**

Contrary to the statements voiced by you and a couple other members of the Board including the Secretary of Education Mr. James Peyser, the safety of the school and schoolchildren from any kind of respiratory disease is not enhanced by mask-wearing; it is evident from all studies and reports from physicians in fact that the opposite is true: children and adults both are in danger of contracting bacterial pneumonia from prolonged mask-wearing, with high risk of life-threatening hypercapnia and hypoxia. Please consult the list enclosed and read the scientific reviews listed, listen to the video testimonials for verification of this information.

Especially please examine the reviews analyzed by Professor Denis Rancourt in his compendium: [Masks Don't Work—A Review of Science Relevant to COVID-19 Social Policy](#). Here is his summary/abstract (emphases mine):

“Masks and respirators do not work.

There have been extensive randomized controlled trial (RCT) studies, and meta-analysis reviews of RCT studies, which all show that masks and respirators do not work to prevent respiratory influenza-like illnesses, or respiratory illnesses believed to be transmitted by droplets and aerosol particles.

Furthermore, the relevant known physics and biology, which I review, are such that masks and respirators should not work. It would be a paradox if masks and respirators worked, given what we know about viral respiratory diseases: The main transmission path is long-residence-time aerosol particles (< 2.5 μm), which are too fine to be blocked, and the minimum-infective-dose is smaller than one aerosol particle.

The present paper about masks illustrates the degree to which governments, the mainstream media, and institutional propagandists can decide to operate in a science vacuum, or select only incomplete science that serves their interests. Such recklessness is also certainly the case with the current global lockdown of over 1 billion people, an unprecedented experiment in medical and political history.”

**K-12 MASK MANDATES ARE NOT LAWFUL NOR ARE THEY LEGAL;
MASKS ARE KNOWN TO BE HARMFUL**

In the lawsuit which Children's Health Defense filed against the New York Commissioner of Health recently, on the basis of which the Mask Mandate in New York was repealed, the following points, which apply also to Massachusetts, were made—please note that unquoted text below is mine, based on information in the lawsuit, on information from the FDA website, and on previous reportage:

- “The Mask Mandate is unlawful under international, federal, constitutional, and state law.”
- Mask-wearing had only been suggested earlier by the CDC and FDA on the basis of an Emergency – but there is no Emergency in Massachusetts currently, even as pronounced by the Governor—in itself an unlawful pronouncement, given all faulty data from the CDC, as discussed earlier.
- “Vaccines and masks used for a medical purpose are regulated by the FDA.”
- The FDA cannot and does not recommend indiscriminatory use of masks—because masks are an “unlicensed medical device”; the FDA cannot and does not recommend everyone wear masks to prevent disease because no individual risk assessments are possible or have been made, and without such, no widespread recommendation or mandate can be made.
- “The FDA has not approved any vaccine or mask intended to be used for general use against SARS-CoV-2 other than through an EUA.”
- “It is unlawful under the EUA to even represent that the vaccines or the masks are safe or effective, leave aside to mandate or coerce them.”
- “Masks, when used for the purpose of infection mitigation, are also experimental devices and are only authorized for general use outside of hospitals pursuant to their own EUAs.”
- “The FDA recognizes that the data on prolonged mask use is limited and it is not legal to represent that prolonged mask-use by the general public to mitigate transmission of pathogens is either safe or effective for such use pursuant to the terms of their EUA.”
- “No peer reviewed study has yet found that widespread use of cloth masks or reusable surgical masks can mitigate the spread of SARS-CoV-2 or any other similar aerosolized pathogens. At best, there are hypothetical “modeling” studies which are inherently unreliable and subject to layered, flawed assumptions. Thus far, the models have not been established to be true by any hard science.”
- “The only randomized controlled trial of cloth masks showed that cloth masks actually increase

the risk of health complications and spread of disease rather than help stop its spread. Based on this study, guidelines were updated to recommend that it is safer for healthcare workers to have no mask than to use a cloth or reusable mask.”

- “The peer-reviewed evidence available shows that serious adverse health outcomes can and do occur from prolonged mask use.”
- “A recent study out of India found a significant correlation between prolonged use of cloth masks and black fungal lung infections.”
- “Other known serious health effects that can be induced by prolonged mask use include but are not limited to fungal, bacterial and viral infection in the mouth and respiratory tract, fatigue, loss of concentration, headaches, loss of brain function, long-term neurodegenerative disease, lack of normal cognitive development, increased susceptibility to viral infections and illnesses, cardiovascular disease, hypertension, exacerbation of existing chronic disease, premature aging, premature death, hypoxia, hypercapnia, shortness of breath, increased lactate concentration, acidosis, toxicity, chronic inflammation, self-contamination, increase in stress hormone levels, increased muscle tension, immunosuppression, panic, anxiety, claustrophobia, mood disturbances, and compromised cognitive performance.”
- “The Mask Mandate violates several fundamental rights, including but not limited to the right to be free from forced medical experimentation.”
- “This right is both a fundamental right pursuant to United States Supreme Court jurisprudence but is also recognized as a jus cogens norm under the laws of nations.”
- “As set forth more fully above, the forced administration of either experimental vaccines or masks is, under the circumstances, experimental medicine. “
- Due process protected in the US Constitution allows all parents “to refuse non-consensual administration of any objectionable medical product, and/or to be free from the forced administration of medical procedures and devices” which parents reasonably believe will cause their children harm.
- All parents and children in America have “a fundamental right, secured by the Due Process Clause of the Fourteenth Amendment of the United States Constitution:
 - a. to breathe fresh air;
 - b. to self-determination in matters of medical care and the administration of medical products and devices;
 - c. to medical privacy; and
 - d. Pursuant to the First and Fourteenth Amendment, to freely express (their) viewpoints on

masks...”

Further, Anna de Buisseret, attorney and former military officer in the UK has published vital information for governments and schools to be aware of before issuing dangerous edicts and mandates counter-indicative to human health, published in my article of Jan 26, 2021:

No President, Governor, or Mayor Can Mandate Wearing Masks, Taking Tests, Taking Vaccines, or Self-Isolating: These Are Not Laws Anyone Need Follow, They Are Outright Deceptions.

Although Anna de Buisseret is speaking of laws in the United Kingdom, the very same considerations apply in the United States as well:

“Anyone being asked to wear or use a medical device - such as a mask - should be medically assessed by an Occupational Health team for their INDIVIDUAL risk posed to them by wearing a mask.

Failure to conduct a Health & Safety Risk assessment is both a civil and a potentially criminal offence.

Therefore both the Government and the supermarkets - and anyone else enforcing mask mandates in the absence of a full Health & Safety Risk assessment in the workplace -, is acting unlawfully and can be held PERSONALLY liable for the damage caused to the individual.”

There is much to be said on this subject, Mr. Riley, but it all boils down to this, which many scientists and lawyers are expressing, with evidence, over and over: **Mask mandates for schoolchildren, demanding prolonged wear of masks during the school day, are supremely harmful and completely unlawful and illegal.**

It appears that you as Commissioner and the entire Board which has permitted this mandate to be rolled out on schoolchildren in Massachusetts has made a dreadful mistake; it is not too late to amend this grave error in judgment and governance and halt the mask mandates immediately.

Our children need to breathe freely, think freely, and study freely, unencumbered by medical devices which they are not required medically to wear, and most definitely not for extended periods of time.

COVID VACCINES ARE NOT REALLY VACCINES BUT INVESTIGATIONAL NEW DRUGS WHICH ARE GENE-THERAPY AND TOXIN-LADEN

I have covered this subject for so long now that it is very clear to me—as to millions around the world who are not being swayed by the pharmaceutical propaganda being exclusively churned out by corporate media (who are suppressing all true scientific and critical enquiry)—that the COVID “vaccines,” as Funeral Director John O’ Looney says are “lethal injections” which are creating death and injury, being passed off as the “Delta Variant.” This is a must-listen interview with this concerned funeral director who reveals the truth about COVID: There is no COVID pandemic, he says, but people and now children are being forced to take a dangerous new drug which is gene-therapy or genetic-engineering, which is what is causing deaths now, due to strokes, heart attacks, blood clots, and multi-organ dysfunction. [Must Watch! Funeral Director John O' Looney Blows the Whistle on COVID/Max Igan](#)

I recently sent this letter (on Sep 14, 2021) to the principal and school nurse at North Quincy High School after I learned that NQHS plans COVID Vaccine Clinics on campus, and it encapsulates what needs to be fully known across Massachusetts about the vaccines which are not vaccines:

“Dear Martina Ryan and Keith Ford,

As a parent of a child at NQHS and a journalist reporting on COVID, I must let you know that the COVID vaccines are causing 1000s of deaths and millions of terrible injuries in both adults and teenagers and children, and it is not right that NQHS should be holding vaccination clinics on campus.

New information being published by scientists also reveals that the flu vaccines, like the COVID vaccines, contain toxic graphene oxide and are responsible for the many aftereffects of the flu vaccine such as Guillain Barre syndrome and blood clots.

Please peruse these recent articles I have published on the subject. I have written to the Massachusetts Commissioner Jeffrey C Riley and am exploring the matter further whereby he has demanded children wear masks and are subjected to monitoring and testing everyday, with the intent of increasing vaccination rates--I will publish on this soon.

I will enclose a copy of the letter for you, it is also in one of the articles; as educators you should know what is in these articles, and what is being brought forward by scientists and reported:

A school is not a place for a vaccine clinic or, more accurately, a clinical trial. Please be aware children and teenagers have died, have suffered serious injury, have been diagnosed with myocarditis, after being given this terrible Investigational new drug which is not really a vaccine--it is a spike protein maker, a genetic-alteration device, and a depositor of nanotechnology. NQHS is opening itself up for liability by encouraging and coercing children to take harmful vaccines and untested drugs on site.

Please carefully consider what you are doing and take action to protect our children from untested and experimental drugs which are causing distinct harm to all.

Listen to this testimonial from just two young people who took the vaccine and were harmed by it:

I was a normal girl until I got vaccinated
<https://www.thegatewaypundit.com/2021/09/watch-west-virginia-university-employee-speaks-horrible-pain-suffering-getting-vaxxed-employee-meeting-mandatory-vaccine-mandate/>

Listen to Dr. Anne McCloskey speaking out about how the vaccine is just causing extreme harm and must be halted:
<https://www.bitchute.com/video/SyTAcSOVZDfr/>

This is a time for all educated professionals such as you and I to use our skillsets and our critical faculties to carefully examine the evidence and then make powerful decisions to protect our children, even if they go against the prevailing dominant narratives. Consider please that these narratives dominate only because mainstream media completely obliterates all mention of the negative effects and deaths accruing from this vaccine.

The Massachusetts Commissioner of Education and the Massachusetts Department of Public Health are not being led by the science, data, or facts. They are currently pushing a dangerous experimental treatment causing grave harm on our children.

Please stand up for what is right and halt these planned clinics at once, and please take action to halt the mask and testing mandates as well.

Our children's healthcare is not the business of the school or the state. Currently, it looks like the misguided, misled, misstepping policies of the state and the school are in Great Danger of harming our children.

If and when North Quincy High School children start dying of the "vaccine" you are making it so easy for them to get, with clinics on campus, the liability and responsibility for their death will land firmly at your doorstep if you do not act now to halt this catastrophe.

Do not hesitate to reach out to me for further information should you need it. My article "[In a sea of lies...](#)" at my website (everydayconcerned.net) is collecting factual information on the masks, tests, vaccines, while my article "[Toxins in the vaccines, tests, masks](#)" collects info on the toxins found.

Letter to the Commissioner enclosed.

Thanks very much,

Kindly consult the many articles at my website on the toxins being identified and found by electron microscopy, phase contrast optical microscopy, and X-ray spectroscopy by different teams of scientists in the US, Spain, Argentina, and elsewhere in the 4 major COVID "vaccines": this is truly revelatory information which demands our immediate attention as parents and educators: we cannot impose these dubious injections on our children when the vaccines are filled with toxins and causing blood clots, miscarriages, heart attacks, paralysis, convulsions, and death in thousands of young people.

Please see my latest article where I have included the figures on death and mortality currently from the two VAERS databases in the US and Europe, the CDC VAERS and EudraVigilance:

[New Micrographs Reveal Graphene Oxide and Parasites in the Pfizer-BioNTech COVID Vaccine](https://everydayconcerned.net/2021/09/15/new-micrographs-reveal-graphene-oxide-and-parasites-in-the-pfizer-biontech-covid-vaccine/)

Also kindly note that many doctors have examined the data and spoken out about how these gene-therapy mRNA drugs are also causing sterility in our children, a subject I examined with focus in this article:

[Mass Sterilization \(and Deaths\) of Children and Youth with Toxin-Laden COVID-19 Experimental Vaccines is Underway; Doctors Plead for a Halt: Pregnant Women and Children](#)

[Must NOT Get the Vaccine/https://everydayconcerned.net/2021/08/25/mass-sterilization-and-deaths-of-children-and-youth-with-toxin-laden-covid-19-experimental-vaccines-is-underway-doctors-plead-for-a-halt-pregnant-women-and-children-must-not-get-the-vaccine/](https://everydayconcerned.net/2021/08/25/mass-sterilization-and-deaths-of-children-and-youth-with-toxin-laden-covid-19-experimental-vaccines-is-underway-doctors-plead-for-a-halt-pregnant-women-and-children-must-not-get-the-vaccine/)

It is profoundly alarming to me therefore that the Secretary of Education and the Commissioner of Education made remarks at the Board Meeting promoting and anticipating 80% COVID-vaccination and more from the school population.

All information, scientific and clinical, points to these drugs being supremely harmful for all, and most definitely supremely harmful for children.

I ask you to please examine the evidence, inform yourself of the facts, and take action immediately to protect our children by immediately halting all mask mandates, all testing mandates, all vaccination clinics, and all promotion of these dangerous and lethal injections. As educators, the Board and Commissioner should be speaking out about the real science and harms of the vaccines and masks and surveillance-testing, not promoting them.

As before, I will send this letter to the Board members, Quincy School Committee members, Superintendent, QPS, Principal, NQHS, and publish it shortly at my website.

I look forward to positive action from your office in protection of all Massachusetts schoolchildren.

Sincerely,

:~Ramola-grace/Ramola D
