

Calling Out Media in Washington, DC and Ottawa for Refusal to Report COVID-Vaccine Deaths: The Situation is Dire

Media lies, omissions, and distortions are adding to the numbers of deaths from the vaccines, including children's deaths

Brilliant video (link below) today from **Laura Lynn** of Canada (from Ottawa) where she addresses the situation with the truckers in Canada and encourages people to speak the truth, including in her video a snippet of Del Bigtree at the DC rally recently calling out the media, and a snippet of herself at a truckers' press conference on Feb 3, 2022 speaking directly to Canadian media reporters set up at the back of the conference and asking why they are not reporting the truth about the deaths recorded in the CDC VAERS database—which lack is surely leading to more people vaccinating themselves and their children and opening themselves to the possibility of death and deadly injury. She closes with Nicky Mathis' powerful song and video of the truckers' Freedom Convoy, Stand on Guard. Some separate links below.

Laura Lynn also questions and records Dr. Paul Alexander at the conference addressing the over 22,000 deaths now at VAERS—classically under-reported, he informs all, since all vaccine injuries have been found to be 1-10% under-reported, and while the vaccine has proved harmless for many people, there is a segment of people for whom it has proved to be

deadly harmful, he says, causing deaths and serious injury.

MSNBC MOCKS INFORMED CONSENT AND THOSE STANDING UP TO UNLAWFUL MEDICAL MANDATES ON AN EXPERIMENTAL NON-VACCINE WHICH IS KILLING PEOPLE

Del Bigtree has included in his video (link above) footage of MSNBC reporters talking about the medical freedom rally in DC on Jan 23, literally mocking the need for Informed Consent for medical procedures and putting down the large number of concerned citizens who showed up for the march as a motley crowd with no defining mission or purpose.

To me, who doesn't watch Pharma-run-news at home and catches snippets like this only in posts online--showcasing the incredible hubris and massive ignorance or active malice of TV "reporters"—maybe we should call them acting-reporters—it is incredibly shocking to see people like Chris Hayes and Brandy Zadrozny exhibit their ignorance of Informed Consent, the Nuremberg Trials, and the vaccine deaths associated with this vaccine—dismissing everyone informed and outraged as “anti-vaxxers,” that ridiculous label which literally seeks to hide the facts about vaccines today.

Chris Hayes: “The general gestalt of the rhetoric as I watched this and read reports is really hyperbolic stuff of essentially Nazism—it’s the second coming of Nazism, second coming of the Holocaust — here’s Del Bigtree calling for Nuremberg trials for Fauci and Birx. How common is this kind of language and rhetoric in this movement you’ve been reporting, Brandy?”

Brandy Zadrozny: “...This is just sort of the Internet come to life. You had the weirdest bunch of people all come together—it was really a conspiracy test yesterday. And I think it’s really important to talk about how extreme these folks are. I was asked yesterday, were there any “EXTREMISTS” there? And I said, YES, EVERYWHERE! They were on the stage, and you know you can frame it as “I just don’t agree with mandates, that doesn’t feel right with me” but when you share a stage with a man who says Vaccines are gonna kill your kids, and that Proof of Vaccination is an elaborate plan to enslave you, and track you with Bill Gates’ satellites, which is what RFK said yesterday when he said being vaccinated is worse than the fate of Holocaust victims, if you share a stage with those people or you’re at a rally “well I am just against mandates” you listen to this and clap and say “jail all the reporters” that is a quick quick march to EXTREMISM.”

Chris Hayes responds with blather about how focus on Informed Consent and bringing up the Nuremberg trials is a revelation of the “ENGINE OF RADICALIZATION.”

Well, I’ve always wondered where the FBI gets its inflated rhetoric of EXTREMISM, RADICALISM, DOMESTIC TERRORISM from—since they have now published numerous documents openly criminalizing and tagging as extremist basic, fundamental rights to free speech, assembly, and expression protected under the real US Constitution and Bill of Rights which they should but do not honor—and here it is, right here on MSNBC, from chitter-chatter streamed on national TV by two somewhat-young twits, Chris Hayes and Brandy Zadrozny, clearly using those buzzwords and tagwords and literally painting all Americans with a conscience and a desire for medical freedom as extremists and radicals,

direct assistants to FBI confabulations and distinct harms—as expressed in their illegal-targeting-and-DEW-persecution actions against hundreds of thousands of Americans, often reported at my website, including, most recently here: [Blueleaks FBI Bulletin Surfaces COINTELPRO and Seeks to Criminalize the Illegally FBI-Targeted.](#)

So, this is a pipeline to the criminalizing of innocents, and Chris and Brandy aren't hiding it.

Further, what exactly are they caviling about when it is very clear from the CDC VAERS database that over 20,000 Americans, including children and young people have died post-vaccine, when numerous videos show us athletes collapsing on the field post-vaccine, when pilots have crashed their planes or been forced to ground their planes suffering heart attacks and strokes in mid-flight post-vaccine, when videos show us news reporters and chefs live on camera collapsing and dying post-vaccine? Even if you did not read Health News, Vaccine Impact News, The COVID Blog, The Daily Expose, Off-Guardian, Epoch Times, or The Everyday Concerned Citizen—which these two should, since they're acting-reporters on national TV—you could not fail to miss those live videos of people collapsing and dying on camera. Yes, the vaccine kills, RFK is right, and the vaccine is going to kill your kids if you don't wake up and get informed.

But you certainly won't get informed on MSNBC as these two—and a third unnamed woman—establish. Informed Consent is about knowing the facts prior to consenting to a medical intervention like a vaccine. Informed Consent is currently not being provided for by Pfizer, Moderna, AstraZeneca, Janssen, or anyone else, nor by the pharmacists, medical techs, nurses, and doctors who administer the C-vaxxes, since no insert exists inside vial boxes, and no information on the rising numbers of deaths and serious injuries like paralysis, Bell's Palsy, seizures, strokes, blood clots is being provided by the needle-pushers at point of impact.

Listening and watching to MSNBC—as also other deadbeat lying, misinforming media—is leading to parents subjecting their children to a very dangerous and deadly non-vaccine (many doctors use the term gene-therapy) which is in effect operating as a neuro bioweapon inside their bodies, and causing grave harm.

Brandy and Chris need to wake up here and recognize they are pushing a deadly and irresponsible agenda—mocking those who question, who have the facts, who read and think critically, ridiculing calls for Nuremberg trials made by deeply concerned reporters and doctors, while not in any way addressing the numbers of vaccine deaths not merely reveals their ignorance, it supports the continuation of this vaccine rollout and helps in ensuring there will be more vaccine deaths, including of children.

And that, Brandy Zadrozny, is the greater harm: certainly those reporters pushing out lies and making false claims about the safety of vaccines in general and this one in particular are committing crimes against humanity with their vast platforms, and jailing them is a very good idea indeed—except our current jailers (the FBI) are as culpable today, right alongside MSNBC.

Ironically, Brandy Z is touted on MSNBC as “covering extremism.” No, it would be more accurate to say she is “promoting the labeling of extremism,” and this little snippet here fully illustrates it. She also “covers misinformation,” we are told, but in point of fact she is promoting and embodying the dissemination of misinformation. **Reportage on the COVID vaccines lacking reportage of the over 22,000 vaccine deaths is 100% Misinformation.**

Thankfully, ratings of these national shows are going down as people are waking up, and Del Bigtree tells us more people are watching his shows than Chris Hayes’:

Many thanks to Laura Lynn and Del Bigtree for speaking openly and directly to the reporters—who are cowards as Laura says—who cling to their Pharma-run-media jobs and will not stand up for the truth and report the truth, they need to be continually called out. As Del Bigtree notes, he was one of them once and he stepped away to work on his own and investigate the truth and report the truth, why can't they? What is stopping these decorated reporters at the New York Times and the Washington Post—both outfits run on drug-money, he reminds us—from standing up for the truth of what is happening today and reporting it accurately?

A terrible travesty is in operation—and Media is helping it happen. The vaccines are lethal and death-producing and should be stopped, yet Media is ensuring they kill more and more people, day after day.
