

PRESS RELEASE | April 30, 2022

Ramola D

Author, Writer, Independent Investigative Science and Technology Journalist, Educator

Ramola D Reports/Bitchute, Brighteon, Odysee, Lbry, Rumble, Live 528

The Everyday Concerned Citizen/everydayconcerned.net

**Neighborhood Watch Harassment & April 14-19, 2022 Section 12 Involuntary Psychiatric Hold on Defamatory False-Claim: Police Crime & Police Retaliation for Truth-Journalism on:**

- 1) Today's Surveillance Overreach & Extensive Human Rights Violations in the ongoing covert and overt Military, Intelligence, Homeland Security, Law Enforcement Subjugation/Pacification/Counter-terrorism Operations and Experimentations targeting innocents,
- 2) True Science of Disease and Health Exposing Distortions & Faulty Science behind the "COVID-19 Pandemic" and other operations (such as HAARP/Chem trails) targeting all of humanity;

On April 14, 2022, 3 Quincy Police Department officers (operating in Maritime/Admiralty law and Sea Jurisdiction, for the Commonwealth of Massachusetts, a private corporation), one who identified himself also as "Tim O' Brien" a "mental health professional," entered the home of Ramola D in Quincy, Massachusetts, after being unlawfully let in upon ambushing and deceiving her estranged husband on the porch with a false-claim narrative--with no evidence--issued by a woman neighbor across the street, engaged in verbal and physical intimidation, summoned other officers and EMS personnel into the home, manhandled her out of her home into a Brewster EMS ambulance, where she was restrained into a reclining stretcher, and escorted this ambulance to Carney Hospital in Dorchester, where she was held unlawfully with 24/7 Security Monitoring both in the Emergency Room and a Psych Ward in grievous and harmful conditions for six days, from Thursday April 14, 2022 to Tuesday April 19, 2022, supposedly ordered on a form from the Department of Mental Health, Commonwealth of Massachusetts (signed by a Quincy Police Department officer with no published qualifications in Mental Health), under a "Section 12" Involuntary Psychiatric Hold for Psychiatric Evaluation, despite her full verbal denial of consent and jurisdiction, as an American State National, Massachusetts State national and sovereign living woman, living privately on the land and soil jurisdiction of the united States with the protection of American Common Law and Public Law which includes the Bill of Rights and original Constitution for the united States of America, unincorporated.

As reported by a nurse openly to others and repeated to Ramola D at Carney Hospital ER, the woman neighbor had falsely claimed that Ramola D was "taking video of her children and posting the films on Facebook, doesn't think there's anything wrong in this, and has a fixation on children." As reported later to Ramola D by the estranged husband unknowing of long-term Neighborhood Watch Harassment, the first police officer apprising him of this claim had stated "Harassment is illegal" and informed him, falsely, that Ramola D was "posting images and film on social media" of the neighbors, as well as informed him there was a procedure in place for a Mental Health evaluation and there was nothing he could do about it (which led to him opening the door to them).

Prior to the police showing up and running this shoddy Ambush and Capture operation on April 14 on Ramola D: On April 12, 2022, the woman neighbor had engaged in a very loud and unprovoked, out-of-nowhere defamatory false-accusation in public, on the street, of Ramola D "taking video-recordings of her children" when Ramola D was in her front garden taking pictures of her cherry tree and hyacinths in her own front yard, using a cell phone.

This had led to a verbal altercation where Ramola D questioned this false-claim and recommended that this woman stop using EMF weapons on her--an altercation partially-recorded on her cell-phone (as witnessed by Ramola D) by this woman (excluding her opening provocation) and later made available to police and to staff at ER and at the Psych Ward at 4 SE at Carney Hospital (who spoke openly about it).

On April 13, 2022, Ramola D posted a private Notice of Trespass and Deceit to this neighbor and an adjoining-house neighbor, who was witnessed from a window by Ramola D speaking to the False-Accuser on April 12 after this verbal altercation (which Ramola D had ended by informing the False-Accuser she was making false-allegations and false-claims and then going back into her house, shutting the front door).

Ramola D's Notice of Trespass and Deceit was a private communication to the neighbors described in it--inclusive of about 4 houses on the block (although many others are involved), and recounted in gist the 8-year-history of Neighborhood Watch harassment--comprising continuous Arrival-Departure and Outside-the-House Monitoring/Stalking/Staring/Hostility, Noise, Neighborhood Smear Campaigns with Public Slander and Defamation on Lies and False-Claims, massive Noise Harassment, and 24/7 injurious EMF-technology/Microwave Weapon assault recorded on EMF meters as emanating from certain houses (as also from remote sources such as celltowers, planes, antennas, drones), inclusive of intrusive, obvious, overt Operations of patterned and constant vehicular zooming into the neighborhood, overflying drones, planes, helicopters, noise-making trucks et al--which she has endured for over 8 years now, since 2013--and which Overt Operations all the neighbors are fully aware of as well--and has reported publicly about, both in recent personal-report journalism, in published information on FOIA requests made in 2014-2022 to the DOD, DOJ, FBI, US Air-force and others, in two Memoranda to President Trump in 2017 and 2019 (the first with hundreds of others in USA and worldwide), and in published letters to various Government officials, including the previous US Attorney-General William Barr, the Massachusetts Attorney-General Maura Healey, the Massachusetts Governor Charles Baker, the Boston FBI Special-Agent-in-Charge Joseph Bonavolonta, the Massachusetts Commonwealth Fusion Center head, Lieutenant-Colonel Christopher Mason, the Norfolk County Sheriff Patrick McDermott, the Quincy Mayor Thomas Koch, the then DOJ Inspector-General Michael Horowitz, the new US Secretary of State Anthony Blinken, the Massachusetts Secretary of State Frances Galvin, and others.

In this Notice, as in previous flyers posted around this very Stasi and Neighborhood-Watch-Harassive neighborhood, Ramola D, as a journalist, human rights advocate, and firm believer in truth and justice, has reserved the right to document all harassment-crimes directed at her--as indeed everyone in the

world being harassed has a right to record--for any future purposes of collection or publication of evidence. Nowhere in this Notice or previous flyers or notices has any mention, threat, or notice been made of taking or posting random photos or films of people or children not engaging in harassment-crimes.

(And in actuality, no images or films even of these offending neighbors have ever been published by Ramola D anywhere on social media or online, as falsely-claimed by the False-Accuser, who appears to be an Informant Provocateur.)

Ramola D is well aware and has investigated and reported on Neighborhood Watch being pernicious programs of social isolation, ostracizing, and slander run by the very Law Enforcement, Sheriff, FBI, DHS and DOD factions who are also running or/and facilitating the 24/7 EMF Tech Surveillance and Military-Intelligence experimentation operations in neighborhoods, cities, counties, states all over America--aimed it appears at neighborhood subjugation, and the targeting and suppression of independent thinkers, writers, influencers, activists, broadcasters, whistle-blowers, and civic-minded people of integrity and conscience (such as Ramola D) through extreme programs of Life Take-down through Smear Ops and EMF Tech Ops, while very dark and harmful programs of Mind-Hiving, Artificial Intelligence, Machine Learning, Internet of Humans, Digital Twin Creation, Remote Neural Monitoring, Brain Mapping, EEG Heterodyning, EMF/Neurotech Behavior Modification and more--using intrusive bio-hacking and neuro-hacking technologies--are being experimentally used and run on these same writers, activists and others targeted, involving massive human rights violations and essentially comprising In-Community torture, kept hidden through use of Spectrum Technologies and silencing social protocols (such as Neighborhood Watch). Ramola D's journalism covering these matters and the vast and unethical, inhumane phenomenon described here, often alluded to as "Targeted Individuals," along with her interviewing of FBI, CIA, NSA, DOD whistle-blowers, scientists, knowledgeable experts, journalists, and people made unlawful targets, as well as her uncovering and reportage of declassified documents and much wide testimonial is well-known in the USA and worldwide--and has been accomplished as a service to humanity, and a service to all Americans, to expose crimes against humanity as a science-and-technology journalist and human rights advocate with a keen interest in making positive change in the world, for the protection of all peoples, and for the advancement of human consciousness and community to harmonious and respectful levels (currently non-existent, it appears, thanks to Surveillance overreach and abuse by government agencies).

Ramola D's journalism and exposure of Government and Military crimes against humanity has unfortunately elicited much retaliation from the dark forces executing these crimes on thousands or millions and she has reported on some of this retaliation in her Personal Reports and public journals, as well as in articles and letters posted online.

At the Carney Hospital Emergency Room--where the nurses, doctors, staff and Security guards had a great time openly discussing Ramola D's published letters and private emails (hacked into or made available by whom? Private-party criminals or a government agency such as the FBI?), Ramola D witnessed and heard one of the Attending physicians in the ER make statements over the phone

suggesting definitive police and government retaliation for her journalism. One of the things this ER doctor said (shockingly and revealingly), as he relayed to the (presumably police/government/shadow-criminal party) on the line that "no psych facilities he had called was willing to take her because there was no trauma," was "I understand you're looking for access to get her an entry into the system."

Not only was there "no trauma" -- meaning no exhibition of psychosis or uncontrollable mentally-ill behavior which might possibly warrant a "Section 12 Involuntary Hospitalization" (which actually sounds illegal in every way) -- there was no reason whatsoever for Carney Hospital ER to hold a living woman, clearly not mentally ill nor mentally unstable, who was moreover denying consent and jurisdiction, not for an hour, not for a day, not for 2 days, as they ultimately did, and not for the further 4 unlawful days which they facilitated when they (ER staff) transported her upstairs to 4 South East, a Psychiatry wing. The statement made by that ER doctor established definitively that some quite criminal intent lay behind the entire Section 12 operation, and pointed to collusion between Carney Hospital ER medical personnel and the Quincy Police Department and Massachusetts Fusion Center/State Police personnel--to silence an outspoken journalist and powerful advocate for humanity by "getting her into the system" (of what--bogus Psychiatry, rigged courts, complicit judges, forced-compliance to "social workers" and forced-dosing with deadening and destructive Psychiatric Meds for life?)

It should be noted that Ramola D witnessed an all-in-blue-clad Massachusetts State Police officer arrive briefly to Carney Hospital ER in the first few hours of her being held there, who took the special step of coming up to the spot where she was being held, unscreened Cubicle 5--kept open to the gaze of armed, black-clad Carney Hospital Security staff positioned opposite for 24/7 monitoring of a sane, peaceful, intelligent, living woman not exhibiting any signs of violence or psychosis whatsoever and clearly not a candidate for a Section 12 Capture--and aiming a pointed stare at her, while not introducing himself, and not speaking to her, but quickly departing from her field of view, suggesting that the local Massachusetts Fusion Center, of which the Mass State Police Chief is head--as per a FOIA response sent to her in 2015 (available at the Muckrock website and [at everydayconcerned.net](http://everydayconcerned.net)) was quite aware of and possibly participant in the entire unlawful Section 12 kidnapping racket of a perfectly sane, law-abiding, non-violent journalist.

There is much more to this story which will be revealed in written reports and interviews shortly. Suffice to say this was an attack on Constitutionally-protected God-given freedoms and rights, and an apparently planned police attempt to silence a journalist.

By transporting a perfectly sane and in fact quite exceptionally observant and thoughtful writer and journalist into an Emergency Room and Psych Ward in a local hospital and holding her there for 6 days against her will, Quincy Police and those behind them have now exposed the operations of Carney Hospital ER staff and Psych Ward staff to open scrutiny: more will be published on this matter, suffice to say for now neither Physical nor Mental Healthcare is practiced at these places.

By engaging in this unlawful kidnapping of a writer and journalist from her home, on a profoundly defamatory false-claim, with no evidence, and taking many steps to hold her at Carney Hospital, with

no evidence of "psychosis," but confabulating many baseless claims of "danger," Quincy Police have of their own volition exposed their profoundly harmful and unlawful targeting operations of in-community informant-provocateur planting, their use of defamatory false-accusations and false-claims, and their baseless Section 12 holds of people who are quite thoroughly sane, whose witness testimonial, voice, name, credibility and reputation they are targeting for take-down--as Ramola D has been reporting, about multiple others' cases, from first-hand testimony in interviews she has conducted in print and on audio/video podcasts, for many years now (print since 2014, audio/video since 2017). Quincy Police have also now revealed the historic and initiating False-Claim Smear operation absurdly and baselessly defaming her, and continually seeking to defame her (outrageously, maliciously, and criminally) as a Pedophile from 2013, when her wonderful art, natural science, and creative writing workshops, beloved to all the children she taught, applauded by all the parents of these children were abruptly targeted and smeared into oblivion.

The saga ended on April 19, 2022 thanks to the intervention of an informed psychiatrist aware of the military EMF technologies Ramola D mentioned, the repeated call on separate jurisdiction (No Consent, no Personam (not answering to the Name/Legal Fiction), No Subject Matter Jurisdiction for any judge in the Maritime/Admiralty Law system) and the advocacy and support of hundreds of truth-media and science colleagues, friends, followers and supporters of Ramola D's journalism, who called in to the hospital and spread the word online, to whom she is grateful.

Ramola D has made FOIA requests for more information to the Quincy Police Department, Massachusetts State Police (who run the Commonwealth fusion center), and the Department of Mental Health in Massachusetts, and will report on this shortly. These latest 6 FOIA requests she has made--as well as over 50 requests made since 2014 to investigate government surveillance abuse crimes in Quincy, Massachusetts, and USA--can be viewed at Muckrock.com under the name "Ramola Dharmaraj."

Ramola D is keen to speak openly and publicly on this matter on any and all media and journalistic platforms with an interest, commitment, and dedication to truth-journalism, health and medical freedom for all, and to an ethical, humane, conscientious world free of invasive and unethical bio-hacking/neuro-hacking Military-Intelligence-Law Enforcement EMF Spectrum technologies and nonstop surveillance overreach built rather on paradigms of expanded consciousness, harmony, transparency, independent critical thinking, free will, and organic community.

Ramola D's writing, journalism, and broadcasting is freely available online at Ramola D Reports video channels at Bitchute, Brighteon, Odysee, Rumble, and at The Everyday Concerned Citizen (everydayconcerned.net). Her online literary quarterly featuring small presses and writer/poet-interviews (in hiatus currently, to be revived hopefully in renewed form) can be read at Delphi Quarterly. Her author website Ramolad.com is in the process of being updated to include notice of her latest publications, including her new book, released this spring from Paycock Press, For the Sake of the Boy. Her children's workshop site, earlier known as The Wishing Well, now ArtCreateWrite, records some of the many lovely workshops (after-school, home-school, summer camp) she hosted for a few years for children, and will hopefully be revived at some point, in the right circumstances, for lifelong

learners of all ages and for children. Her extensive CV and information on her work (as a well-loved and highly-commended adjunct professor) in teaching creative writing, English composition, and Literature at the college and continuing-education levels for 20 years at several Universities and community colleges in the Washington DC area, as well as a lifetime of warm-hearted and caring volunteering including as a case manager at homeless shelters in Washington DC and Arlington County for over 7 years, radio reader for the blind and visually-impaired at the Metropolitan Washington Ear for over 5 years, human rights advocate and writer for the imprisoned and for refugees from war-torn zones at Amnesty International and the International Committee of the Red Cross, advocate against animal cruelty at various animal protection organizations in the Washington DC area for several years, active community-minded helper in running eco-justice news shows and interviews at a community cable TV channel in Arlington County and baking (and donating) fabulous cranberry-orange and blueberry loaves for vegan bake sales at community events in Falls Church and Arlington County can be found in her long-form CV (currently possibly offline, to be re-published soon) [at her author website](#).

Please contact Ramola D at [ramolad@everydayconcerned.net](mailto:ramolad@everydayconcerned.net) anytime for interviews and information.
