

FALSE CLAIM BY NEIGHBOR AT XXX PINE STREET AND FALSE ARREST/SECTION 12 BY QPD April 14, 2022 ON FALSE CLAIM

Sent online via QPD/Chief Paul Keenan contact page May 2, 2022

:Dear Chief Paul Keenan:

:In the matter of the April 14-19, 2022 Quincy Police Department Ambush, Home Break-in Under False Pretences, Deceitful Ambush and Coercion of Estranged Spouse to Induce Crime of Personage, Verbal and Physical Intimidation, Manhandling, False-Arrest, False-Detainment, False-Claim-Transport-by-Ambulance, False-Reportage-on-Dept-of-Mental-Health form and grievous forced Section 12 Involuntary Hospitalization for 6 days of a perfectly sane, stable, law-abiding, and living woman (and publishing journalist, who publishes as "Ramola D")--who verbally and continually stated she was such, and a Massachusetts state national living privately on the land and soil jurisdiction of the united States of America--in grievous conditions of harm (of extreme cold, no edible food, no free access to drinking water, no exercise, no sunshine, no nutrition, no cellphone communications, among others), about which several FOIA requests have now been submitted to Quincy Police Department, Massachusetts State Police, and Department of Mental Health, Commonwealth of Massachusetts, I wish to state the following, for Quincy Police Department records, and to immediately clear my name:

:~1) It is only afterwards, at Carney Hospital Emergency Room, and later that I came to hear the Reason --a False-Claim--for the coercive and assaultive Forced-Home-Entry, Intimidation, and False-Arrest of Ramola D, as described in the published April 30, 2022 Press Release which can be found here: Neighborhood Watch Harassment & April 14-19, 2022 Section 12 Involuntary Psychiatric Hold on Defamatory False-Claim: Police Crime & Police Retaliation for Truth-Journalism <https://everydayconcerned.net/2022/04/30/ramola-d-press-release-april-30-2022-neighborhood-watch-harassment-april-14-19-section-12-involuntary-psych-hold-on-defamatory-false-claim-police-crime-police-retaliation-for-truth-journalism/>

:~2) I called QPD on Saturday April 16, 2022, on Monday April 18, 2022, and Tuesday April 19, 2022 from Carney Hospital 4 South East to get a copy of the Police Report on which I was kidnapped and transported to Carney Hospital ER and Psych Wing. On Tuesday's phone call I was forwarded to the QPD Police Records department, where I spoke with a woman who told me that there was no police report, but the police logs showed a call from a woman who left no name for herself nor gave a name for me, and later a call from a police officer saying someone was being transported in a Brewster EMS ambulance to Carney Hospital in Dorchester. Was I, a living woman, arrested, kidnapped and trafficked to Carney Hospital on an anonymous phone call to the QPD station, with no record of what this woman called in and said, purely on hearsay slander for which there is no evidence whatsoever?

:~3) As recorded in my Press Release linked above, I was given to understand (from the nurse in Carney ER referenced in the press release, and later from the estranged spouse) that the False-Claim against me to which Quincy Police Department responded came from the hostile and paranoid woman neighbor next door, from **XXX** Pine Street, who had engaged in a public verbal altercation with me on April 12, 2022, when I was outside in my front yard photographing my spring garden flowers when she suddenly began a very loud public dispute by abruptly and baselessly claiming at high volume I was "video-recording her children." I was also given to understand by the nurse at Carney ER that the (very shocking, false-claim) story from QPD to EMS at Carney was that I had supposedly "posted films and photos of her children on Facebook and didn't think there was anything wrong with this" plus, egregiously, "had a fixation on children." I have put in FOIA requests to QPD and Mass State Police to get to the bottom of this matter to find out what exactly this deranged woman said, and what exactly was the reason for 3 police officers (along with backup police and Brewster EMS) running an Ambush and Capture operation on me on April 14, 2022, and await all information with interest.

:~4) I am aware that on April 13, 2022, one police officer from QPD showed up at my home waving around the copy of the :Notice of Trespass and Deceit--a private communication I had put at the doorsteps of **XXX** Pine Street and **XXX** Pine Street, describing the 8-year-long Neighborhood Watch Harassment and other forms of harassment I have been subjected to in this Quincy neighborhood, matters I have described in documented FOIA-based reportage as well as letters to various police and government officials including Maura Healey, Attorney-General of Massachusetts, and Charles Baker, Governor, Thomas Koch, Quincy Mayor, et al (more information in my Press Release and at my website), as well as describing the altercation on April 12, 2022 which was initiated by the hostile woman neighbor at **XXX** Pine and which was ended by myself informing her

she was publishing false-accusations and going inside to my own home (at ~ XXX Pine) and shutting the door. I understand my husband was told by this officer "Harassment is illegal" --irony to beat them all, since I was reporting an 8-year program of clearly organized and systemic Neighborhood Watch Harassment, Noise Harassment and public slander, no doubt well-known to and apparently facilitated by Quincy Police (Please see my FOIA requests reporting all unusual ground-vehicular and Air Vehicle action from 2014 onward in my Quincy neighborhood to USAF, DHS, City of Quincy, and others)--in addition to other forms of harassment, as described in that Notice, against myself, and suggesting at its close that all parties in any American neighborhood exhorted to engage in cruel and hostile actions of Neighborhood Watch Harassment and Slander against others always had the choice to not do so. Please be aware this was a private communication to two neighbors and I have no interest in further discussing this matter of my :Notice and its contents with Quincy Police at this time. Suffice to say however writing an informational notice is not a crime, posting it privately to people on cars and fences and doorsteps is not a crime, posting notices and flyers online is not a crime, and stating in notices and flyers that victims of neighborhood harassment and hostility have the right to record and document all harassment--by and of neighbors who are adults, not children--for purposes of documentation and future address is not a crime either, nor is it a threat of a crime. Writing and speaking in fact are exactly the things to do, when people are harassing you for no reason: Silence in the face of grievous crimes of harassment is not the answer. (Neighborhood Watch Harassment on the other hand, which deliberately isolates and ostracizes people, then falsely calls them "anti-social", is a whole bunch of crimes.)

:~5) I am writing this letter specifically to address the matter of this False Claim this woman has made, to clear up this matter for your QPD records and to state definitively for your edification it is a False Claim, False Accusation, and profoundly defamatory and slanderous allegation against a very dedicated and diligent mother, teacher, writer, journalist, author, who has in fact volunteered extensively in her daughter's kindergarten and elementary schools, run wonderful and much-loved home-schooling, summer camp, and after-school creativity, literary, science, and art workshops for children, worked locally in preschools and art centers as an art teacher for children and has also a stellar resume of successfully teaching young adults and adults in Universities, community colleges, and Continuing Education programs for 20 years in addition to an array of long-time volunteer work in many different community-service organizations. On the day in question, April 12, 2022, when this woman screamed her vile accusations--like an Agent Provocateur--at me in public, I was photographing flowers in my front garden. Had I been filming, I would have caught her entire diatribe on tape. The photos of these flowers are still in my phone and I will publish them. Further, let it be definitively known that all accusations suggesting I have posted random film and images of anyone, let alone children, anywhere, are completely false--when random paranoid women and gullible or malicious police accuse someone of such things, there should be a simple process to check online to determine the facts before unwarranted police action to ambush families and capture innocents. Not merely do I not post images and film of harassing neighbors and their children online on social media or anywhere, glancing through my social media will prove this definitively. As a publishing journalist, I have way better things to do: I post my video interviews, reports, and newsbreaks online, so my journalism can be widely read and viewed. Nor do I recommend others do so; I do recommend however that everyone being victimized in these ways record their harassment if they can. None of this means that I condone Neighborhood Watch Hostility and Harassment or that it is my job to protect such invaders of privacy and contractors with fusion centers who operate in neighborhoods using EMF Tech Surveillance: those who harass others, including under Citizen Corps or Infragard or anything else must know they are engaging in extremely reprehensible actions against others, and no doubt the Natural Laws of the universe (their own Karma) will take care of their perfidy, I don't claim to have any part or interest in this.

: Recording the hostility and harassment of others against you for purposes of documentation and future address is not a crime, it is the recording of a crime. However, the random public accusation of "filming children" and "photographing children" and "fixating on children" has disgusting pedophile overtones to it, and is essentially slanderous, defamatory, and character-assassinating in nature: that False-Accusation in fact is malicious, egregious, and should be viewed as a crime. This woman has in fact published malicious and criminal False Accusations on me. Not merely do I not randomly "film and photograph children," nor recommend that others do--whether they engage in harassing activity or not--I, as a mother myself and a teacher of children, take every step to protect all children from public exposure; this cannot be said for those people who freely use their children and encourage them to harass others: as you may very well know, and as many have reported to me as a journalist, all those families who run Neighborhood Watch Hostility and Harassment on others with Police/FBI/Sheriffs' blessings do indeed use their children, reprehensibly, to harass others.

: Police worth their salt might want to Investigate such egregious accusations first, before barging into homes with Mental Health mavens in tow and arresting innocent people. Where is the evidence--on any of my social

media--of such claimed "postings of films and photos of children"? Why would Quincy Police come and lie to my family about such, with no evidence whatsoever? How indeed can Quincy Police ambush a family with false claims based on No Evidence? Whatever happened to Due Process? What is the real reason Quincy Police wanted so desperately to run an Ambush-and-Capture Section 12 Crisis-Operation False-Flag on me--retaliation for my truth-journalism?

:~6) Obviously I am outraged at the actions of this woman in slandering me, and at Quincy Police, the Department of Mental Health, and Carney Hospital, Dorchester for having collusively engaged in the profoundly egregious actions of kidnapping and holding me in captivity in an icy-cold Emergency Room and freezing room in a Psych Ward for 6 days, subjecting me against my will, without my consent to a "Psychiatric Evaluation" which I fully repudiate, and permitting my Name as a Journalist, Broadcaster, Author, Educator, and Writer to be so damagingly and publicly slurred and slammed. There are several aspects to the crimes against me which need to be correctly addressed, including the actions taken by QPD officer "Matthew Miller" who signed the Section 12 form, and the clearly unqualified and under-educated "Tim O'Brien" who wrote down a whole page of lies and drivel on that form against me. No doubt I have to further address these actions of public hostility against myself, in law and journalism and writing as the living woman and writer and state national living peacefully in the private as I am--and in correcting any new, false medical records made in the Legal Person name of "Ramola Dharmaraj", as I move forward, but I am sending this letter to immediately address the matter of the horrifically egregious False Claim this delirious and demented woman seems to have made against me, and to personally notify Quincy Police this was a False Claim and False Accusation and a False Arrest based on this claim. Kindly correct your records accordingly, and the records of all to whom you have shared any information associated with the name "Ramola Dharmaraj."

: My name and public image as a Truth- and Peace-centered living woman, mother, writer, broadcaster, speaker, and journalist (who is perfectly sane and in immaculate possession of all her mental faculties) who is openly engaged in candid disclosure and truth-telling journalism (not some shady seedy profession as this raving False-Accuser has falsely-claimed), is very important to me--as to all those who appreciate my writing and journalism--and I will take every needed step to set the record straight and ensure I am seen in the correct light of who I truly am and how I live in the world rather than in the false light of false-claims, false-accusations, false-psychiatric-evaluations made after harassive, false-claim provocations and public abuse by unhinged women who appear to be operating as collusive police informant provocateurs and professional defamers.

: Should you wish further information from me on this matter--or wish to apologize for this massive crime against me--please reach me by email at ramolad@everydayconcerned.net.

:Thank you very much for your attention to this most grave and serious matter.
