Dear Barbara Gehrs,

I am an author, journalist, and former George Washington University Creative Writing faculty writing to you in your named capacity as Ombudsman on the US Air Force Directed Energy Bio-Behavioral Research Contract with General Dynamic Technologies granted by AFRL/RQHA in response to the solicitation BAA-HPW-RHDR-2013-0002, Agency: Department of the Air Force, Office: Air Force Materiel Command, Location: AFRL/RQK - WPAFB, as reported recently at my website [here](#) and [here](#).

This is a preliminary contact post recent disclosures of information on that contract, succeeding Freedom of Information Act requests. Information in documents obtained on the 2014 Freedom of Information Act request reported there, including information on Human Rights protections on this contract are being provided to me only now, hence this current request. I tried by phone to reach you last week but was unsuccessful (the phone number listed on the contract didn't seem to work).

I am writing to ask if you are still the Ombudsman on this contract, past or present, and if I and others should direct to you our statements and affidavits on the harms and human rights violations accruing to us directly as a result of being non-consensually and unlawfully weapon-tested-on and weapon-trained-on by the US Air Force. Please inform us who we should direct our information to otherwise, we would greatly appreciate an email address, letter mail address, and phone number for an US Air

Force Ombudsman, Human Rights representative, or any other relevant party we can write to and report our experiences to, as we call collectively for an immediate halt to these extremely harmful and life-destroying operations of war on us, an innocent and law-abiding citizenry.

As a reporting and experiencing American journalist of much intense Directed Energy Weaponry and Neuroweaponry assault for nearly 10 years now, which has greatly harmed my life as all lives so wrongfully encroached on, I have written several times to various City, State, and US Government officials inclusive of the Attorney-General and Inspector-General at the Department of Justice, Special Agent in Charge, Boston FBI, and CIA, as also published much investigative reportage researching and interviewing reporting witnesses, Government whistleblowers, authors, journalists, and activists addressing these crimes. These letters, interviews, articles, and podcasts can be viewed at my website, The Everyday Concerned Citizen, and at my broadcast video channel Ramola D Reports on several video platforms including Odysee, Lbry, Bitchute, Brighteon.

I have also sought to comprehend the US Air Force's involvement in the use of Electromagnetic Weaponry and Neuroweaponry on the American population through numerous Freedom of Information Act requests, most posted currently at Muckrock, and appealed, like many others to human rights bodies like ACLU and the United Nations Special Rapporteur for Torture for help. Please especially see the two Memoranda sent to the President of the United States, Donald Trump, in [January 2017](#) and [June 2019](#), endorsed by hundreds of other Americans, both civilians and veterans, as well as Government whistleblowers. My most recent letters and articles, to the CIA, to the Senate Intelligence Committee, and reporting the Second Worldwide DEW/Neurotechnology Conference can be seen here: [Extreme Assault on Writing Arm & Shoulder: Letters Sent to CIA and US Senate Intelligence Committee](#), and ["Existential Threat Against Humanity" says Dr. Robert Duncan: Worldwide DEW/Neurotech Targeting & Non-Consensual AI/Cybernetics/Brain Experimentation Conference Bears Witness to Profound Mil/Intel/DOJ/Univ/Private Sector Crimes](#).

I am interested as the FOIA-requester in speaking with you or any other designated representative to address a few questions I have on this contract and others, so I can report accurately on the scope and nature of this contract, documents on which I have still not properly received, a matter I am investigating currently with Muckrock and with the FOIA office at Wright Patterson AFB. I am continuing to query the US Air Force on Freedom of Information Act provisions for further information on similar contracts past and ongoing presently nationwide, and if relevant, worldwide.

I would appreciate your immediate attention Please email me at ramolad@everydayconcerned.net or/and at ramolad@hushmail.com with your advice I may also be reached at [REDACTED] or at [REDACTED]; please feel free to leave me a message if I miss your call, I will call back rightaway

Thanks very much.

Best wishes,

By:
