55 Fogg Road, Box 55
S. Weymouth, MA 02190

Dear Data Integrity Team:

In response to your unsigned letter of August 10, 2023, please note that my letter dated August 7, 2023 to Medical Records at South Shore Hospital sought the correct medical records, as per my original request, relating to my being held unlawfully under duress at the Emergency Department of South Shore Hospital from 12/20/2022 to 12/21/2022, and is not a request for amendment of medical record. I enclose that letter for your repeat review. My request stays the same: I am seeking only the correct information from South Shore Hospital Emergency Department, as per my original request.

Please send the correct PDF with all intake documents, all referral documents, all Section 12 documents, all ambulance narratives and documents handed to nursing staff, all clinician notes, all EKG/ECG graphs, all lab notes, all patient transfer notes at the very earliest to my email address: ramolad@everydayconcerned.net, and a print package of these records as noted earlier to the postal address above.

Kindly also provide a name and contact details, that is, telephone, fax, and email details for the Director of the Emergency Department of South Shore Hospital, the Director of South Shore Mental Health/Aspire, and the Director of your Health Information Management Department whom I can communicate with on this matter.

Thanks very much,

By:
