Dear Mr. Bill Sherrod, AFRL/RDK,

I'm a writer and journalist, writing in relation to the DETER ARA announcement calling for white papers and proposals for development in the area of Directed Energy Experimentation Research, and I'm interested in staying informed about the announcement, any finetuning published and how I can stay on top of what kind of research projects are under consideration under this program. I wonder if you could add me to your mailing list and send on information as published on this announcement. I'm also especially interested in the US Air Force's human rights and human rights protection programs in this area, and would love to receive more information on this subject as you publish it. Also, is there any kind of Public Liaison Office where people could write in for more information on this subject and provide their input and advice on US Air Force Directed Energy programs?

If there is a specific spot online posting the latest, please let me know so I can stay on top of these DETER papers and proposals. I can be reached here at ramolad@everydayconcerned.net.

Thanks very much,
Ramola D/Dharmaraj
