Hi Ramola,

All agreed. Don't worry; I'm fully aware and awake. Kiriakou isn't the only one that had a scare, thinks he's done his bit and now profits from it. That's his choice. To be blunt, these people (and I include all the book sellers and speakers and experts like Begich that won't even answer a TI email) are not as honest, dedicated and determined as you and I. That's not big headed, just true. People will and do sell out. I've seen it with many of my contacts; AFP officers, scientists etc.

And, of course, the CIA should go but how....Kennedy was the last one to try...Trump's distrust of them and the MSM is what I like but even he doesn't want to take a risk like that.

Regards,  
Paul.

Incredible.

On the one hand he says he doesn't know much....but he just SOLD a TV series to MGM????????!!!! featuring a CIA TI conspiracy?!!!!

Paul, wake up! One does not write fiction or screenplays without researching the subject. If he knows enough to write a TV series, I would venture to say he knows enough about what is going on -- the information is ALL OVER the internet, and people like you, Cait, and I have been turning him in the right direction anyway.

All that said, I take your point abt his prison experience and his position. I know we can't persuade anyone who is from that world, without their own volition.

Your advice to Cait that she and Bill and Kirk offer him a summation and get him up to speed is all good; maybe they will succeed. But judging by Cait's performance on the survey, I won't be holding my breath anytime soon.

I am sorry: I believe in the abolition of the CIA and I am more than sick and tired of running after ex-CIA who don't have the guts to speak the truth -- and now I have to say it does NOT make me happy to hear of an ex-CIA man who will not openly acknowledge TIS run off and sell a TV series to MGM on TIs!!!! That smacks to me of being BOUGHT OUT. No doubt the new CIA/MGM Narrative will be rolled out, with his series....as you know, they like to do "disclosure" primarily through Hollywood flicks and series....think about it!

Hi,

I approached John Kiriakou again based on your information.

Originally he was skeptical but he now says he simply doesn't know enough about the problem...But then neither did any of us until we were targeted and/or researched what large numbers of innocent citizens were enduring.

I think if he were to be fed a concise summation from a fellow agency whistleblower or two we could get him on board. When good, brave people are fence sitting they can be drawn to our cause. Perhaps you could try as his presence would be valuable since everyone knows of the waterboarding torture and his effort (and sacrifice) to expose it.

BTW. I also tried others, including trying to unite Jean Marie Arrigo, Collin Ross and Seth Farber as a trio of knowledgeable psych' experts. I think Jean may be out of energy at her age, ala Geral Sosbee who was supportive until recently.

I don't think John would mind; his reply is attached.

Regards,  
Paul.

Hi, Paul. I really don't know enough about the whole thing. With that said, though, I recently told Kate Ryan that I sold a television series to MGM in which the lead character is trying to uncover a CIA TI conspiracy. I've spoken to Jean Maria about it. Thank for the invitation and best regards to you.

Message Body:

John,

Bill Binney and other whistleblowers, experts, even some harassed actors, are planning a filmed net forum on the topic of CIA / NSA covert surveillance and the associated oppression. Jean Marie Arrigo and two other psych' experts will be invited. We'd like to know if you are up to speed on these programs and, if so, if you're prepared to attend the forum.

The details depend on crowdfunding finance to pay our sympathetic filmmaker but we're currently compiling a list of those we'll invite....Can we count on you?

Regards,

Paul Baird.
