 Signed **No**

Dear Nils Melzer, UN Special Rapporteur on Torture:

I enclose for your perusal links to a few articles, reports, memos, and statements I have published over the last few years, in the course of my work as an investigative journalist and human rights advocate, detailing the extent to which non-consensual physical and psychological torture has been inflicted on the populations of the world via remote-access weapons under guise of surveillance, community-policing, non-lethal weapons testing, classified experimentation, neuro-experimentation, psychological warfare, social engineering, behavior modification projects, and so on.

I have spoken to hundreds of reporting victims over the last few years, heard their stories, showcased and presented their experience; I also speak from experience as a target. I am currently compiling a report for you and a few others, which will be a more defining report, I will send it on shortly. Please see also my Torture series with Dr. Millicent Black examining torture at my video channel, Ramola D Reports at Youtube.

[For suggestions on ending these crimes and assisting the persecuted, please see the end pages of the two Memos to Trump here listed:](#)
