Dear Sophie, and Sophie's sisters,

Just a quick line to say hello and share a few thoughts.

First, all of you must know that the CIA who is masterminding the circle-ops here, permitting some of you to visit me sometimes, is engaging in Crime. They have no business doing this to me or to you. It's Manipulation, and it's a Lie, because each of you is being made to pretend you are my child Sophie, and we have this Extremely weird relationship where we are not in touch with each other at all and you can come by just when you feel like it, once in a year. This is absurd.

As some or all of you may know, the real truth is that Sophie and her dad Paul have been REMOVED from our home by the criminally-behaving CIA-FBI-Quincy Police crime cartel which has been involved in or known about the lawless Cloning of Sophie when she was born in 2004. Each of you has been made from the stolen stem cells of her umbilical cord and my placenta or womb lining which has also nourished and helped form you. What has happened is the midwife's assistant who was present at Sophie's birth at our home in Arlington, Virginia (now sold) stole my afterbirth, the cord, the cord blood--in a DOD-CIA "black operation" and sent off the cells for cryogenic storage. Eventually those cells were brought to a genetics lab and eager-beavers used to making new babies from stem cells and placenta and so on separated your embryos and eventually implanted them in other women who became your second biological mothers. Or surrogate moms. I am not sure what the correct nomenclature would be. I am however your biological mom, the first one, and Paul is your bio dad, the first one.

To complicate matters further, Paul was also cloned--earlier than Sophie--and there are many Paul-brothers now, across age groups, I have met many of them, as I have met many of you. Some of them are your fathers--not your biological dads, but cell-related and your adoptive or surrogate dads.

Now across 2023 and 2024 when I first met you all, I was still trying to figure out what exactly was going on and who you all were. Well I have figured that out now and Paul and Sophie are still not home. Using Lies, the local Spy cartel has carted them out of the house--and imagined they could manipulate me forever, gaslighting me re. who each of you is.

Well, as I have said earlier, I cannot be any further gaslighted. The CIA doesn't seem to get it because they have a long history of Crime behind them and are filled with Hubris. They have to REMOVE me and you all from any and all of their sick programs and projects of MANIPULATION. They have to STOP ATTACKING OUR FAMILY IN THIS FASHION!

Each of you and your father and mother should be free to get in touch with me and with Paul and Sophie openly and tell us about your lives, your names, your history.

I am upset that this has not happened yet.

Remember that the last couple years when you all were in and out of here some of you did some questionable things, like taking Sophie's camera, her books, my books, stop up the bathroom sink, put something in the milk to make it spoil, etc. Your fathers also did funny things like that, including yanking the router out, cutting the tv cables, taking my car key, letting someone--police, I think--steal my car and Grandma Donna's car--and stealing Paul's special racing bike, his Lemond. Which means each of you have been asked by the CIA/Army/whoever is running the Psy Op game here to do so. They CANNOT DO THIS ANYMORE!

They need to give my phone controls back to me and unlock it so it charges up again and works again. Currently it drains out immediately and I cannot turn it on. My new phone cannot be linked to my account since Paul is not here with the account info.

Without a phone I cannot keep in touch with you regularly. You need to be able to text me--and hear back from me--before you come visit. I have closed the house to all visitors including you all because you are being flown as Sophie which is not

right. You are not Sophie, although of course you are as dear to me as Sophie. Do some of you have the same name as Sophie? If so you must tell me your name and tell me where you have been living up til now, and who your mothers are. I am very keen to meet you all together and speak to your mothers and fathers as themselves, to have you tell me your real name.

But the CIA Opsters need to know they cannot do this to a Mother. I am a Mother and I cannot be treated like this. They need to release it all--my phone, and Paul and Sophie.

Please know I love you all very much but you must write me first and tell me your real name and when your birthday is and what you are doing and where you are living and where you grew up.

I'm very sorry one of you came by today and I could not open the door. I am being attacked bigtime by Police and local criminal actions and need to stay inside for now. Please understand and please tell your dads they need to release my phone back to me so you can text me your name and tell me when you would like to visit. I cannot respond if you keep on trying to perpetuate the lie that you are my Sophie who will be 20 on Nov 24 this year.

Sophie herself needs to call me and tell me what has been happening. The home phone is on--617-481-6728. But none of you can come here currently and tell me you are on the porch or in the front and I need to open the door. I cannot move currently, my right knee has been attacked with electrical weapons by the 2 mercenary families planted here next to me.

Love you all very much and God willing--after you speak to your CIA/Army dads there and convey all this--you can come home to visit.

PS: I need to know each of your names and birthdays and name of your hometowns.

Thankyou and lots of love--Your always and forever Mom
