Hi Paul,

Here to report yet another unwarranted police visit closeby, parking in front of our house despite the fact of our No Parking sign planted on our native plant strip for quite some time--removed last week I suspect by the woman opposite at 153 Pine.

I am going to once more have to report this series of crimes to the Attorney-General and the Secretary of State. The couple next door seem to have both installations and portable devices as do the people in the house behind them, the Mergels. As you know this couple is responsible for the breaking of our furnace, our dishwasher, our oven last year, and have engaged in numerous acts of vandalism, stealing plants, seedlings, both this year and last, and breaking into our house to steal food items, play gaslighting games replacing our silverware with theirs, and numerous other trespasses such as cutting our foliage. They did this again this year, and I have found a lock for the side-gate to keep them from entering our backyard and attacking the plants.

In any case, this afternoon, I was making dinner and doing some dishes by the sink--directly opposite them--and I was being RF pulsed in the face again with RF HPM, sounded on my sound shield and making me unable to breathe. I was also suddenly hit --Radio Frequency hit--at my right inner knee, on a nerve there. My heart was being attacked with congestive radio frequencies and I moved a small shield over my chest, so I could breathe. These are criminal attacks through-wall with through-wall weaponry. I opened the side door and saw the man there walk toward me and then back to the backyard. Both of them were there with their 2 kids, and after a minute the woman came out as well. I made a verbal report into my camera reporting what had happened. The woman went and got a cell and took some pics or video of me. I completed my report and took a couple pics of her. Then I went inside. I have been reporting these crimes--and reporting ON this weaponry as a science journalist, for quite some time. As a journalist, I am not going to stay silent. None of our police or security agencies have any right to permit such crime, to permit anyone to operate radio and radar, microwave and millimeter wave weapons on anyone inside the USA. As you know I have especially reported on the Air Force weapons-testing operations inside the USA, and written frequently on this subject, including, most recently to the ODNI, the Massachusetts Attorney-General, and the Director of the FBI. I have listened to many reports from Americans reporting identical crimes, and interviewed whistleblowers from the NSA, FBI, CIA, Police, and spoken with many officials in the government about the use of these so-called "Non Lethal Weapons" and "Intermediate Force Technologies" without cause and to great detriment, on many. I believe--as do many human rights advocates like myself--that the use of these weapons in any kind of operation, whether a military testing operation or an Intelligence testing operation or a Police or Fusion Center "deterrence" or "crime prevention" operation should be stopped. I continue to research and report on these operations and have turned my attention to human rights law, which I think

could be applied, as could commonsense and diplomacy, to engage people in meaningful conversation and end the use of these weapons inside the USA and indeed in any kind of war situation as well.

Well this lady has called the police it appears--and they have come and parked here for quite some time. They should not be here, and they should not be parking in front of our house, they should not be listening to the reports of the people at 156 Pine, 153 Pine or 150 Pine, all of whom have been working to bring the police here on false reports. I have published the facts on these false reports, and I have written both to the Chief of Police, the City, and to the Attorney-General on this matter.

No one should be supporting the CIA --and other mil/intel groups--in their programs of human subject experimentation on people; as I have reported, these are programs that use Torture and essentially seem to be murdering people. There are published reports--I mean journalistic--of people having been attacked to the death with these programs.

Kindly step forward and let Quincy Police know I am a journalist, and I have the right to speak and publish my reports. In the past, Quincy Police has twice kidnapped me and forced me into a hospital on false reports, for purposes of affixing false psychiatric labels on the Journalist. I have spent about 3 years now addressing the falsity of these labels and publishing openly on this matter. I continue to publish in this space.

When are you coming home? If someone in the Police or FBI has given you a false letter of "notice of investigation" that has been renewed interminably here, know that that is on fraudulent grounds. I have been harassed by Quincy Police and the people practicing Crime here for 3 years now and obviously I should not be. I am looking forward to having Sophie home for her 21st birthday soon. I hope all are doing well and I would like this weird scenario to be ended as quickly as possible. If you need to, you should send a letter as a lawyer to Quincy Police and the Boston FBI or whoever has kept you out of here, notifying them you are returning home. But you should plan to return home at your earliest instead of letting this drag on, waiting for Them to do something. Be aware many crimes have been committed here--and QPD and the CIA and FBI need to clean up their act.

It is 6:18 pm now and there is a police car here still parked in front of our house. That's criminal defamation and criminal trespass not to mention Threat and intimidation. they have been here for more than one hour. The last time I noticed they were here it was 5:25 pm.

Ok, It is 6:20 pm and they have just moved their car and parked in front of 153 Pine. There are kids playing outside, and it has gotten dark. I will go back to completing my dinner-making (dinner cum lunch) and I am going to write to the Attorney-General and the Secretary of State once more. As a journalist, it is my duty to inform them that radio weaponry is being used unlawfully on people and to request that the people operating them--this neighborhood--be stopped in their projects of Extreme Harm to the people. And myself.

You have the house phone number. Call and leave a message. I will publish this letter shortly to make sure you get it. Thanks--Ramola
